KEY POLYMER

CRACK FILLER FP100 A/B

The ideal repair for delaminations that "show daylight" and draw in water from wet roadways. Crack Filler repairs stop further damage and deterioration in these spots. Water can no longer splash up into the moving trailer. Wash out water residue won't collect and cause rot. Crack Filler can be used alone, but better yet, coat and seal the entire trailer floor with Key Floor Restore™ for a complete restoration and protection.

\$59.99 EACH

REGULAR PRICE \$67.83 EACH

KEY POLYMER

QUICK PATCH REEFER WALL REPAIR QP300-QT

A two-part epoxy designed specifically for the quick and easy repair of cuts and gouges on FRP sidewalls and reefer liners, Quick Patch is the refrigerated transport industry's first and only means of repairs that are watertight, durable and unobtrusive, even duplicating FRP pebble grain surface, when required.

\$95.00 EACH

REGULAR PRICE \$106.80 EACH
